LISBON WALKING TOURS

3 Hours

Nobody knows better a city than the people who live in it. So, we've created a series of Walking Tours to help you discover Lisbon calmly on foot, with lots of [hi]story and always accompanied by an experienced Portuguese official Tour Guide.

LISBON GARDENS

Did you know that the Cedar-of-Buçaco (*Cupressus Lusitanica*) was the first tree in Lisbon to obtain the classification of public interest in 1940?

And that it was then incorrectly classified, because it is not a Cedar, nor is it from Buçaco (a mountain range in the center of mainland Portugal) or even a portuguese species?

In this tour of discovery for some of the most beautiful gardens in Lisbon and the essences that were planted here throughout the centuries, brought from the 5 continents by the Portuguese Discoverers, we will discover these and other historical curiosities related to botany and the history of the Discoveries.

 **Monday to Sunday**, 10 am to 1 pm or 2:30 pm to 5:30 pm

THE ARAB ROOTS OF LISBON

In the Mouraria district, one of the oldest in Lisbon, a place that once concentrated industries such as ceramics, tapestry and olive oil mills, we will find the oldest Jesuit school in the world, founded in the 19th century. On this tour full of history through two of Lisbon's oldest districts, you will feel the soul of Mouraria and Alfama, with the smell of fado and the neighborhood life, looking for the Arab roots still visible in these typical Lisbon places.

 **Monday to Sunday**, 10 am to 1 pm or 2:30 pm to 5:30 pm

ART IN THE SUBWAY

In this tour that shows the conversion of one of the most used form of transportation in the city into a public art gallery, there are animals such as elephants, giraffes, donkeys, turtles, tigers, ostriches and seagulls represented in tile panels, alluding to Portuguese poets like Luís Vaz de Camões, Fernando Pessoa, Bocage...

A journey of discovery through some of the most beautiful subway stations of Lisbon. We challenge your imagination and share some of the Portuguese literary and artistic history.

 **Monday to Sunday**, 10 am to 1 pm or 2:30 pm to 5:30 pm

THE LISBON OF SPIES

We propose you a travel to the past, more specifically to the 40's decade of the 20th century... During World War II, due to the Portuguese political neutrality, Lisbon became a strategic zone for the espionage operations of the Axis and the Allies. Portugal sheltered spies from both factions, European refugees that were fleeing to the American continent and even royal and aristocratic families in search of exile.

On this tour through the historic center of Lisbon, we will uncover fascinating stories of spies that have made the city their home and operational base during the years of this global conflict and that have helped to transform Portuguese society of the time.

 **Monday to Sunday**, 10 am to 1 pm or 2:30 pm to 5:30 pm

TRAM Nr. 28

Did you know that in the route of Lisbon's most emblematic tram, once you arrive at Saint Jorge's Castle (conquered in the 12th century by the first king of Portugal to the Arabs), you can enjoy a breathtaking panoramic view of the city and visit the recent Archaeological center projected famous Portuguese architect Carrilho da Graça?

From Prazeres district to Graça neighborhood and from there to Baixa district again, this is a tour full of stories, curious facts and surprises, aboard in what is perhaps the most famous streetcar of Lisbon.

 **Monday to Sunday**, 10 am to 1 pm or 2:30 pm to 5:30 pm

BELÉM OF THE DISCOVERIES

In the city of seven hills, what is the neighborhood with the most historical monuments and museums per square meter? Precisely this one we will introduce you to! Join us in this (re)discovery of the Portuguese Discoveries, on a calm stroll through one of Lisbon's most famous districts, now home to many embassies of the world. With the aroma and flavor of the famous Portuguese Custard Tarts, just to re-energize, of course!

 **Monday to Sunday, 10 am to 1 pm or 2:30 pm to 5:30 pm**

LISBON HIGHLIGHTS & "PETISCOS"

If in Spain they call "Tapas" to small portions of food that compose a lighter meal, in Portugal we have "Petiscos"! Also small portions of food, usually tasted with your hands, in a fascinating variety of vegetarian, fish and/or seafood, meats or charcuterie options that are just delicious! In this passionate panoramic tour through Lisbon we will see the highlights of this gorgeous city and finish with a taste of some "Petiscos" paired with Portuguese wines in the bohemian district of Bairro Alto.

 **Monday to Sunday, 10 am to 1 pm or 2:30 pm to 5:30 pm**

TAILOR-MADE WALKING TOURS

And why not challenge us with a tailor-made walking tour just for you? Tell us what you would like to know, visit and experience in Lisbon and we will create the tour.

CASCAIS & SINTRA

BODY & SOUL EXPERIENCES

Variable duration

For those who enjoy the proximity to nature, are fans of active sports and want to experience more than gastronomy and culture, we've gathered a series of adventure experiences in some of the most stunning places of the Portuguese coast and very close to Lisbon!

CLIMBING

Get ready for a climbing experience with breathtaking views of the sea or the mountains! Two climbing sites are available, both for beginners and for more experienced in the modality: Casa da Guia (Cascais) and Serra de Sintra (the climbing site is chosen by our guides according to the weather).

Casa da Guia provides ideal climbing conditions throughout the year. Exposed to the south, it is protected from the cold north wind (characteristic of the Portuguese coast). The Guia limestone cliffs offer numerous possible routes, tested and frequently used by our guides team. Alternatively, Serra de Sintra is a place where you can feel the 4 seasons in one day. Because of its cooler temperatures, many consider it the perfect place to climb during the summer. This mountain range offers several possible climbing routes (Boulder and Sport Climbing) and, due to its great extension, there are still many areas to be explored.

Max Number of Participants: 5

Monday to Sunday, 9:30 am to 1 pm or 2 pm to 5:30 pm

MOUNTAIN BIKING

Choose your route in this two-wheel adventure:

Between Earth and Sea, a more relaxed route that passes through Roca's Cape (the westernmost point of continental Europe) and with an impressive view over the Atlantic, with trails along the Serra de Sintra, the cliffs by the sea and along the coast from Cascais to Praia (beach) Grande.

Flaming Trails, for those looking for greater adrenaline and to improve their unique track technique. Also, in Serra de Sintra, whose rugged topography hides a huge variety of trails within the forest, this course suits all levels of experience in the sport. Climb up to the summit of this mountain range and enjoy the descent through the best singletracks in the region.

Max Number of Participants: 5

Monday to Sunday, 9:30 am to 1 pm or 2 pm to 5:30 pm

HIKING

Inspire all the natural beauty that we propose to you! With breathtaking landscapes and intense scent of sea or mountains, you just have to choose your hike...

In the **Happy Trails**, you have 3 tours at your disposal:

1. Along the rocky coast of Roca's Cape (the westernmost point of continental Europe) to a secluded bay.
2. Through the breathtaking Serra de Sintra to its highest point, where you will be rewarded with a unique view from Guincho beach to Lisbon.
3. Tour down a cliff, passing through the footprints of fossilized dinosaurs and ending in a bay almost untouched by man.

In the **Mindful Hike**, get ready for a unique experience along Roca's Cape and up to Ursa Beach. Along this hike you will experience different awareness exercises until you reach the secluded Ursa Beach. In the sand will be just you, one with Nature. This is the perfect location for a relaxing 15-minute Yoga session. Our guide and yoga instructor will guide you through a meditation travel, ending with a Portuguese wine tasting, some snacks and sunset before returning.

Max Number of Participants: 10

Monday to Sunday, 10 am to 1 pm or 3 pm to 6 pm

SURF INITIATION

On Guincho or Carcavelos beach (the beach is chosen by our guides according to the weather) get ready for a relaxed and fun surfing lesson!

Guincho beach is located near Cascais, at the foothills of Serra de Sintra and has a unique and stunning natural landscape. It is particularly known for its wind conditions during the summer, which makes this beach ideal for kitesurfing and windsurfing. Together with Praia (beach) Grande and only 25 km away from Lisbon, this is considered one of the best places to surf in the proximity of the Portuguese capital. It is the only beach with southern wind and more consistent wave undulation during the summer.

Carcavelos beach is one of many beaches of Costa do Sol, being famous for its winter waves. The north wind, typical of the Portuguese coast, creates in this beach fast and tubular waves, perfect for the practice of this modality. During the summer the waves are small and therefore its waters receive numerous beginners in the surf practice.

LISBON PRIVATE SAILBOAT EXPERIENCES IN THE RIVER TAGUS

Variable duration

Ready to observe the eternal “young” city on board a sailboat across the river Tagus? We suggest comfortable clothes, sports shoes and a jacket to protect from wind and moisture. Sunglasses and a hat help the charm and, together with sunscreen, also protect from the sun. During the day or at sunset, enjoy an incomparable view of Lisbon from the river, harmonize with the drink that will be served to you and create unforgettable memories!

ACROSS THE TAGUS TO DISCOVER THE TRIUMPHAL ARCH

On this tour you will enjoy a route that starts at the Parque das Nações Marina and will lead you to the port where, in the 15th century, Portuguese caravels set out to give the World new worlds; the square where King Manuel I established the royal residence in the 16th century and where the palace was located for nearly two centuries, today occupied by government departments, hotels, restaurants and cafes. Comércio Square, one of the largest squares in Europe, is currently limited to car traffic and has been converted to pedestrian circulation. It is also where the imposing Triumphal Arch of Rua Augusta is located, the access “door” to Lisbon’s downtown, whose construction began in the 18th century and was only concluded in the 19th century. Adjust the sails and prepare to return to all Nations Park (aka Parque das Nações)!

Duration: 2 hours

Route: Parque das Nações Marina / Comércio Square /
Parque das Nações Marina

Monday to Sunday, daytime until sunset

FROM PARQUE DAS NAÇÕES TO THE STEEL COLOSSUS

Did you know that Lisbon and the city of San Francisco, in the USA, both have a steel colossus so similar that anyone who sees images of both cities is in danger of getting confused? On this tour, which passes through the new Lisbon cruise pier, Terreiro do Paço, Cais do Sodré and where you can see the emblematic statue of Christ the King, you will discover the 25 de Abril Bridge in a very different perspective... This steel colossus, built in the 60's of the 20th century by the American company United States Steel Export Company, connect Lisbon to Almada (or the north to the south bank of the river Tagus) and has in its genesis the engineering knowledge of the famous Golden Gate Bridge, in San Francisco, since it was the development of suspension bridge technology (only possible in 1937 with the inauguration of the Golden Gate bridge, in the United States of America), that made possible to equate a crossing of more than two kilometers without interruption by spans that could disturb the fluidity in the river. Both bridges were never intended to be identical, because their designs have different authors, but the fact is that they have the same suspension architecture and the same color, that changes its tonality like a chameleon depending on the time of day. And when the bridge lights come on, with the sunset lighting up the horizon, some say that magic happens...

Duration: 3 hours

Route: Parque das Nações Marina / 25 Abril Bridge /
Parque das Nações Marina

Monday to Sunday, daytime until sunset

TO STARBOARD, THE TOWER OF SAINT VICENT

Perhaps just a few Portuguese know where the Tower of Saint Vicent is... But if you ask any Portuguese where is the Belém Tower, everyone will give you the right answer! However, the Tower of Saint Vicent and Belém Tower are actually the same monument, with Tower of Saint Vicent being the official name and Belém Tower the name best known by Portuguese. On this tour, that passes under the 25 de Abril Bridge, you can see the emblematic statue of Christ the King, the Monument to the Discoveries and Jerónimos Monastery, you will see the famous Tower of Saint Vicent on the starboard side and the mouth of the Tagus River, or where the river flows into the ocean. The Tower of Saint Vicent or Belém Tower was built in the 16th century by King Manuel I, it was at the time totally surrounded by water and close to the former beach of Belém. It was built with the purpose of integrating the defense plan of the Tagus river mouth and was dedicated to the patron saint of Lisbon, Saint Vicent of Zaragoza. Classified as a National Monument since 1907, it's considered a World Heritage Site by UNESCO since 1983 and one of the most emblematic monuments in Lisbon.
